

## DRY SHAMPOO WITH ROOT TOUCH-UP AEROSOL

**IGEPAK S.A.**, a contract filler and company with a wide expertise in the development and production of aerosol products, has developed a DRY SHAMPOO combined with a ROOT TOUCH-UP in spray that absorbs oil to refresh hair gently, while blending instantly away the grey roots. It leaves the hair clean, light and with volume without washing. Available in different shades to match all hair colours. Different perfumes, alcohol-soluble active ingredients and polymers can be added for a perfect result.

## THIS INNOVATIVE DRY SHAMPOO WITH ROOT TOUCH-UP REFRESH THE HAIR AND BLENDS INSTANTLY AWAY THE GREY ROOTS

This dry shampoo allows cleaning the hair without getting it wet while blending instantly away the grey roots. Quick and convenient to use, it is particularly recommended for busy people or for the bed-ridden, who cannot wash their hair. The combination of a highly absorbent agent that soaks up dirt or sebum on the scalp, with selected pigments to blend with the different hair colours allows hair to regain volume, freshness and lightness within minutes, while applying temporary colour to the grey hair. It is a perfect solution to extend the time between hair dyes and for hair that tends to get greasy quickly. No wet effect. No colour transfer.

## DIRECTIONS

Shake well before use. Spray uniformly onto oily roots at a distance of 8 inches until desired colour and coverage are achieved. Massage into the scalp. Leave for 2 minutes. Then brush thoroughly to remove all traces of powder residue. Aerate your hair using a hair-dryer and then style as normal.

This dry shampoo can be used as frequently as necessary. Avoid inhalation and contact with the eyes.

**IGEPAK S.A.** offers turnkey tailor-made solutions from developing, producing and filling aerosols to delivering anywhere in the world. It also provides support regarding existing regulations The Company's facilities include: White room, water treatment plant (osmosis and CDI), seven fully automatic filling lines.
