

## AEROSOL DEODORANT

**IGEPAK S.A.**, a contract filler and company with a wide expertise in the development and production of aerosol products, has developed an alcohol based deodorant aerosol, extremely efficient against body odour that gives an immediate sense of coolness. Different perfumes and active ingredients can be added.

### AN INSTANT FRESH FEELING

The aerosol deodorant is easy to use and procures an instant fresh feeling. It helps keeping odour under control with round-the-clock effectiveness.

### EFFECTIVENESS AGAINST BODY ODOUR

The alcohol based aerosol deodorant contains alcohol and antimicrobial agents that kill bacteria and slow down their growth to reduce body odour by combating the odour-forming bacteria. Its alcohol-based formula procures a long lasting sensation of freshness.

It dries within seconds and has a great smell.

### DIRECTIONS

Shake well before use. Hold the can 6 inches away from the skin and spray. Do not apply on damaged or irritated skin. Use it where sweat can be manifested avoiding the face and mucous membranes. Let dry before dressing.

**IGEPAK S.A.** offers turnkey tailor-made solutions from developing, producing and filling aerosols to delivering anywhere in the world. It also provides support regarding existing regulations The Company's facilities include: White room, water treatment plant (osmosis and CDI), seven fully automatic filling lines. Three of these lines are prepared for filling with the B.O.V. system.
