

NON-PERMANENT COLOR SPRAY

IGEPAK S.A., contract filler and a company with a wide expertise in the development and production of aerosol products, has developed a NON-PERMANENT COLOR SPRAY for hair that allows to personalize the hairstyle with trendy colors and to change the look in an instant. It is available in different shades, all very colorful, from turquoise blue to pink fucsia, and highlighted with shiny sequins for a glitter effect.

A TOUCH OF COLOR

This is a fast and affordable way to apply temporarily color to the hair without damaging it, for a total makeover with a glitter and colorful party look for one day. The non-permanent color spray contains selected pigments and cosmetic agents that color every hair shade, even the darkest, with a soft, satin and glitter finish. Color is easily eliminated with a shampoo.

Enjoyed by both men and women. No wet effect. Almost no color transfer once dry. The desired dose is easy to obtain and to apply.

HOW TO USE THE NON-PERMANENT COLOR SPRAY

Apply to clean, dry hair. Protect clothing with a towel to prevent the product from staining it during application. Shake well vertically before each use. Spray at a distance of 15 cm on the dry hair until the desired color and coverage are reached. Do not use too much product and allow it to dry for 1 minute to prevent staining. Serums and hair balms can be used before application.

Tips :

- Brush the hair after application to reduce the intensity of the color or to eliminate the excess of product.
- Use a hair spray after application to better fix the color.
- Use cleansing wipes to remove residues on skin.

IGEPAK S.A. offers turnkey tailor-made solutions from developing, producing and filling aerosols to delivering anywhere in the world. It also provides support regarding existing regulations. The Company's facilities include: White room, water treatment plant (osmosis and CDI), seven fully automatic filling lines. Three of these lines are prepared for filling with the B.O.V. system.
