

TRANSPARENT SUNSCREEN SPRAY

IGEPAK S.A., contract filler and a company with a wide expertise in the development and production of aerosol products, has developed two transparent SUN PROTECTOR sprays that hydrate and protect the skin from sunburn and skin ageing.

THE TRANSPARENT SUNSCREEN SPRAY SPF30 is aimed for sun-sensitive skin under extreme sun conditions.

THE TRANSPARENT SUNSCREEN SPRAY SPF50+ is aimed for very sun-sensitive skin, solar allergies and pigment spots, under extreme sun conditions.

PROPERTIES

It is easily absorbed to leave skin refreshed and protected. Contains Vitamin E. Dry and light to the touch. Water resistant. Allergy tested.

A convenient spray that can be used upside-down. This innovative spray can be used at any angle, making those hard to reach places easy to cover. High extensibility that assures an even spread.

HOW TO USE THE SUNSCREEN TRANSPARENT SPRAY

Apply generously and evenly to all areas 20 minutes before sun exposure. Spray on hands to apply to face. Do not spray directly into face. Use in well-ventilated area. Reapply at frequent intervals and after swimming or towel drying. Precautions: May stain some fabrics.

IGEPAK S.A. offers turnkey tailor-made solutions from developing, producing and filling aerosols to delivering anywhere in the world. It also provides support regarding existing regulations. The Company's facilities include: White room, water treatment plant (osmosis and CDI), seven fully automatic filling lines. Three of these lines are prepared for filling with the B.O.V. system.
