

ANTIPERSPIRANT AEROSOL

IGEPAK S.A., a contract filler and company with a wide expertise in the development and production of aerosol products, has developed an antiperspirant aerosol that neutralizes effectively bad smell due to heavy sweating, and cares for delicate skins. Different perfumes and active ingredients can be added.

A PLEASANT DRY FEELING

The antiperspirant aerosol is easy to use and neutralizes instantly bad smell with a pleasant long lasting dry feeling. It procures an instant sensation of well-being. It confers a smooth, dry feel to the skin

EFFECTIVENESS AGAINST BODY ODOUR WITHOUT IRRITATIONS

The antiperspirant aerosol contains **antiperspirant ingredients** which create small temporary 'plugs' near the top of the sweat glands, significantly reducing the amount of sweat that is secreted to the skin surface, **and skin conditioners to soothe and soften the skin**. It is alcohol-free. It does not stain clothes.

DIRECTIONS

Shake the aerosol energetically upside down before using it. Hold the can in vertical position and 6 inches away from the skin and spray. Let dry before dressing.

IGEPAK S.A. offers turnkey tailor-made solutions from developing, producing and filling aerosols to delivering anywhere in the world. It also provides support regarding existing regulations. The Company's facilities include: White room, water treatment plant (osmosis and CDI), seven fully automatic filling lines. Three of these lines are prepared for filling with the B.O.V. system.
