

MOISTURIZING BODY MOUSSE

IGEPAK S.A., a contract filler with wide experience in the development and production of aerosol products, has developed the **MOISTURIZING BODY MOUSSE**, a creamy, light body mousse which provides intensive moisturizing care, is very easy to apply and fast absorbing with no sticky feeling. The formula can be scented with a fragrance for a perfumed and refreshed skin.

THE NEWEST WAY TO MOISTURIZE

This moisturizing body mousse, with its light-as-air texture, transforms into a smooth body milk as it melts into skin. Very easy to apply. It absorbs instantly with no sticky feeling. It contains glycerine, avocado oil and vitamin E for deep moisture and antioxidant protection. It reconditions the skin even when the product is rinsed off.

The skin is moisturized and noticeably softer and smoother from the first application. It will feel smooth and silky all day long.

INSTRUCTIONS FOR USE

Shake well before use. Holding can upright, dispense a small amount into the hand and spread over the skin massaging with circular motions for a super-soft feel. For best results, apply daily. Then rinse your hands with clean water.

IGEPAK S.A. offers turnkey tailor-made solutions from developing, producing and filling aerosols to delivering anywhere in the world. It also provides support regarding existing regulations The Company's facilities include: White room, water treatment plant (osmosis and CDI), seven fully automatic filling lines. Three of these lines are prepared for filling with the B.O.V. system.
